Democratic Club

An enthusiastic meeting of the Cox-Roosevelt-Flood-Glass Democratic Club of the Old Court House precinct was held on Saturday night October 9, at this precinct. The meeting was well attended, some of the old heads of that precinct saying that it was the largest they had ever seen held there. J. A. Bingham was elected president, L. M. APPOMATTOX HARDWARE COMPANY

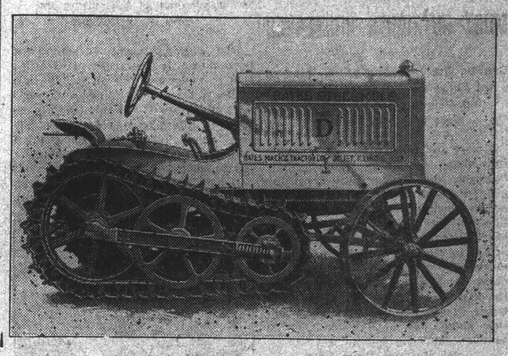
Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience has'nt dictated the shape and size of, and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.

We want this Bank to be different—

To breathe a different spirit, to reflect a different attitude than is said to prevail in some financial institutions.

We desire that this shall be a bank of willing, cheerful service—broad in its views, generous in its sympathies, helpful in its strength—conservative only when conservation is necessry to maintain that strength.

We want the conscientious interest that we hold for the welfare of our customers to be the magnet which will attract and hold the patronage of a discriminating and appreciative public.

We desire that this spirit shall prevail in every department and be reflected in the helpful attitude of every employee.

This has been our endeavor in the past. It will continue to be our aim and purpose in the future.
